BLACK BROS. CO.

SIPA Annual Meeting & Conference 2017
• Established in 1882, in Lanark, Scotland

• World class supplier of roll coating and laminating machinery

• We deliver individual machines or complete systems for a variety of markets globally.

• Black Bros. is an expert at providing prompt, complete roll reconditioning including regrinding, regrooving and recovering

• Our machines are known for their high productivity and extreme durability
Today, Black Bros. continues to provide manufacturers worldwide with the highest quality coating, gluing and laminating equipment. Whether you are interested in single machines or complete systems, we have the experience and technology to build outstanding equipment to meet your specific needs.
775 Cold Roll Coater

Fast, accurate application of Moisture Cured Urethane or 2-Part Water-based adhesives on a wide variety of substrates

Widths 14”-175”

Thickness up to 12.5”
Water Mister
Air Pod Press

Uniform & Consistent Pressure Without Damaging SIP Panels
Sizes from 4’ x 8’ to 9’ x 40’, Openings up to 67”
4 x 28 Air Pod Press
EPS foam coated with adhesive on top and bottom, lay up OSB, stack on scissors lift, roll into Air Pod Press, press time varies based on adhesive.

Custom engineering services: Black Bros. engineering staff can customize any standard equipment, develop an entirely new process to meet your individual product needs, or modify existing equipment to apply new adhesives and coatings as they are developed.

Clear “user-friendly” owner’s manuals: Operating and maintenance manuals for Black Bros. machines are customized per the specifications of each individual serial number, and are clear and well organized. Replacement manuals are available.

Pre-test Demonstrations: Black Bros. has a 10,000 square foot test and demonstration lab, which can assist you in deciding the right equipment, methods, and materials for your application before you invest.

Total training: From pre-startup training, through progressive training seminars and workshops, your operators, supervisors, and maintenance personnel can learn the most efficient, cost-effective, and safe methods of equipment operation and maintenance from trained Black Bros. specialists.

Accessories to maximize machine capabilities: You know that good accessory equipment is a low-cost way to increase return on machine investments. This is especially true with the higher performance capabilities engineered and built into Black Bros. roll-type machines. Some of today’s most significant cost savings are made when simple, reliable Black Bros. optional features increase productivity, improve quality, and reduce idle machine time.

At Black Bros. Co. we are committed to the design and manufacture of high quality machinery, with an uncompromising attitude toward customer service.

The Black Bros. Company
501 Ninth Avenue - P.O. Box 410 - Mendota, IL 61342-0410

Complete roll reconditioning and recovering:
Drawing on Black Bros. Co.'s 130-plus years of building rolls, our roll-service specialists recondition all types of rolls to exact customer specifications, and create groovings, patterns, and surfaces for unique applications.

An Exchange Roll Program: Available for our high-volume customers requiring quick turn around on reconditioned rolls. Contact “Customer Service” for the details of this program.

On-Site service, always on call: To minimize your unscheduled downtime, our factory trained Black Bros. field service personnel respond quickly for machine repair and preventive maintenance inspections in your facility.

The right parts - RIGHT NOW! Black Bros. Co. inventories replacement parts for machines built as long ago as 1927. Most parts are shipped from our Mendota Headquarters within 24 hours after the order is received in our office.

New-machine full year limited warranty:
Original owners of Black Bros. roll-type machines have a one-year warranty on parts needing replacement due to defects in material or workmanship. For details of what this warranty covers, write:

Black Bros. Co.
P.O. Box 410
Mendota, IL 61342

Commitment to a Better Bond:
When your company purchased its Black Bros. roll-type machine, you invested in more than just the physical equipment itself. You also bought Black Bros. ongoing commitment to help you earn the highest return from that investment.

This commitment starts when we engineer and build superior quality and reliability into every original machine. It also includes continuous collaboration - our people working with yours to make certain each Black Bros. machine is working to produce a Better Bond: applying optimum bonding strength for your particular coating, gluing or laminating requirement with the least downtime and lowest real total cost throughout its long life.

So check out our network of integrated services introduced here. Then visit our web site at:
