The SIP-SEAL Mission/Vision

• Support SIPs industry with a complete line of adhesive/sealant products for constructing highest rated building envelopes

• Replace ineffective products with hybrid polyether polymer technologies (STPE)
Best-in-Class Construction Adhesive/Sealant
All-weather, all surface sealant with the lowest modulus, for the most challenging weather exposures
An all-purpose construction adhesive for assemblies requiring a fast-setting, high-strength bond.
For some of the most critical points in the building envelope, a weather-resistant, vapor permeable, flashing sealer.
Fluid-applied membranes – the newest approach to achieving a superior weather barrier
For specific applications where a vapor impermeable barrier is needed
• Dispensing and tools accessories

• Product documentation and how-to support

• Easy ordering
